(3) Other [redacted] mentioned in this report:

[redacted] confirms the 1645th "Aremyanets-Redbanner"
Artillery Regt up to 7 September 1949. The regiment was,
at the end of the war, either assigned to the Third Gds
Tank Army (the present Third Gds Mech Army (Cadre)) or
to the VI Gds Tank Corps (the present 6th Gds Tank Div
(Cadre)). Since the assignment of the 1645th Artillery
Regt (Cadre) has not yet been definitely established, it
has been carried as a liq unit of the Third Gds Mech Army
(Cadre).

The location of the regiment has been unknown. As the report mentioned the regimental APN in connection with several component units of the 6th Gds Tank Div (Cadre) in the WITZENBERG area, it can be inferred that the 1645th AF Artillery Regt (Cadre) is subordinate to the 6th Gds Tank Div (Cadre). However, it is assumed with a high measure of certainty that the regiment has received both the Guards title and a lower numerical designation.

Ø [REDACTED] a ground unit of the I Gds Ftr Corps in the WITZENBERG Bruckenkopf Maserne up to early September 1949.

ØØ [REDACTED] in JOZEBROG-ANDES LAGER 1949 in connection with troops going to NECKARBRUNNEN and is probably assigned to an antiaircraft artillery unit.

It is inferred that the units were staying in the JOZEBROG area only temporarily, having their permanent military posts in the WITZENBERG
